

I am writing to you in your consideration of giving LPFM stations priority over current FM translator services. I listen to K-LOVE everyday as it is the only station of it's kind in my community. It is a vital part of my life and that of my family and friends. It brings a positive influence of encouragement and community involvement to our community that would not be there if it is taken off the air. In a world where you hear a lot of negative comments, it is refreshing to have a radio station like K-LOVE to turn to. Please do not take it off the air. It would be greatly missed!!

Sincerely,

Becky Bowholtz
